

The top part is a guest book from a rest home by the name of "House of Rest" in the name of the 18th Party Congress ((of the Communist Part of the Soviet Union)). It is a "pocket-book" guest book for a person staying in the rest home. N^umber 2970 with some kind of a validation stamp on the front ((too light to read)). The book was issued to a Harold BAKKIAN evidently in

~~November~~ ((not clear)) of 1966 who was evidently examined by a doctor on 22 ~~November~~ of the same year. The initials of the doctor are on the bottom of the first page of the pocket-book. The second page consists of the recommendations of the doctor for this person while he is staying in the rest home. His routine is to be the common one with a morning walk. The patient can make excursions and tourist trips and he can bathe in the ocean/sea, evidently from 3-10 meters and is to take sun baths and air baths ((like a steam bath I believe)), he can row evidently 30 meters, not to participate in sporting games and is to be on diet number 15. His blood pressure when he entered was 120 over 75, the other tables for observations by the doctor who examined him are not filled in. There follows a listing of the ground rules of the ~~guest~~ rest home and rules for taking a sun bath and the air bath ((either steam or a thermal type bath, possibly like the sauna))

The bottom portion is a booklet/phamplet in Ukrainian which evidently details the position/rules concerning the "Comrades Courts of the Ukrainian Republic of the Soviet Union.

TITLE: Position of the "Comradly Courts" of the
Ukrainian SSR"

This brochure explains in detail what these pseudo-Courts are, how the members are elected, ~~and~~ their mission, types of misdeameanors with which they deal, etc. The chapter headings are:

The missions of "Comradly Courts" and their organization

Matters which are investigated by these "Courts"

The order of investigations

The influences which the "Court" can bring to bear against
"guilty"
a ~~judged~~ individual

Leadership of "Comradly Courts" and logistical support of them
or guide lines upon

This brochure can be compared to a set of regulations/upon which these
"courts" function. These "regulations" have been ^{approved} ~~confirmed~~ and promulgated by
the Supreme Soviet of the Ukrainian SSR. There is nothing even remotely
classified about this brochure, or even mildly interesting. There could be
^{marginal} some propaganda value to it since these "courts" are, in effect, kangaroo
courts.
